

**Master of Arts in Project Management and Evaluation (MAPME)**

**What is MAPME Programme?**

MAPME is 18 months program which aims to produce competent graduates with current state of the art knowledge and skills of project appraisal, monitoring and evaluation who will manage projects and programmes efficiently for socio-economic development.

**Why Study MAPME?**

If you want to become an expert in the fields of Project Planning, Management and Evaluation for the development of your community and nation.

**What will you Study under MAPME?**

You will study 10 core courses ranging from: Project Planning and Appraisal; Project Monitoring and Evaluation; Statistical Methods for Project Management; Environmental and Social Impact Assessment; Development Planning; Project Financing; Managing Development Projects; Budgeting and Accounting for Project Managers; Impact Evaluations; Social Science Research Methodology; and Research Innovations and Commercialization.

**What can you Do with MAPME?**

Graduates from MAPME program are expected to work in: government departments, local government, national and international agencies, local and international NGOs, the private sector, research and academia, and self-employment in the areas of project monitoring and evaluation. In addition, completion of the degree allows graduates to apply for accreditation with the National Environmental Council of Tanzania as experts in the fields of social and environmental impact assessment. The MAPME programme will be a pathway to pursue a PhD in Project Management.

**Who Should Apply for MAPME?**

In addition to general admission requirements, apply if you hold:

- an unclassified degree with at least an average of B in a course related to the MAPME.
- a PASS degree and your undergraduate performance in a course related to the MAPME was a B grade average or above, and have extensive fieldwork/research experience of at least three years and/or additional professional development courses of a duration not less than three months.
